GIVE US A TRIAL.

OUR TERMS Will be Found Reasonable.

D. W. DONALDSON & CO.

Yuma, Arizona, April 1, 1878. 52-4f

Proposals for Fresh Beef and Mutton.

HEADQUARTERS DEPT. OF ARIZONA, OFFICE OF THE CHIEF COMMISSARY OF SUBSISTENCE, PRESCOTT, ARIZONA, April 8, 1878.

SEALED PROPOSALS, IN TRIPLICATE, with a copy of this advertisement attached, will be received at this office, and at the offices of the Acting Commissaries of Subsistence, at each of the posts named, until noon, May 20, 1878, for the supply of Fresh Beef and Mutton, live and slaughtered, required at Camp Apache, Bowie, Grant, Lowell, McDowell, Mojave, Thomas, Verde, Whipple, Huachuca, Arizona, and Fort Yuma, California, from July 1, 1878, to June 30, 1879.

It is to be understood, that the contracts awarded under this advertisement, shall not be construed to involve the United States in any obligation for payment in excess of the appropriation granted by Congress for that purpose.

The right is reserved to reject any and all bids offered. Bids, conditions, etc., furnished on application, by the Acting Assistant Commissaries of Subsistence at the posts named or by the undersigned. CHAS. P. EAGAN, Captain and C. S. April 20. 2-4w

Assessment Notice.

COLORADO REVER COPPER AND GOLD MINING COMPANY.

LOCATION OF PRINCIPAL PLACE OF BUSINESS, San Francisco, California.

Location of works, Yuma county, Arizona.

Notice is hereby given that at a meeting of the Board of Directors, held at the company's office on the Eleventh day of April, 1878, an assessment (No. 1) of Twenty-five (25) cents per share was levied upon the capital stock of the corporation, payable immediately, in United States gold coin, to the Secretary, at the office of the company, Room 6, No. 211 Sansome street, San Francisco, California.

Any stock upon which this assessment shall remain unpaid on the twenty-first day of May, 1878, will be delinquent and advertised for sale at public auction, and, unless payment is made before, will be sold on SATURDAY, the FIFTEENTH day of JUNE, 1878, to pay the delinquent assessment together with costs of advertising and expenses of sale.

By order of the Board of Directors, H. AUG. WHITING, Secretary. Office—Room 6, No. 211 Sansome street, San Francisco, California. April 20. 2-5w

Notice to Creditors

In the Probate Court of the County of Yuma, Territory of Arizona. In the matter of the estate of August Humboldt, deceased.

NOTICE IS HEREBY GIVEN BY THE administrator of the estate of August Humboldt, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within ten months after the first publication of this notice, to the said administrator or his attorney at the Village of Yuma, Territory of Arizona.

Dated at Yuma, Arizona, April 19, 1878. SAMUEL PURDY, Jr., Attorney for George Martin, administrator of the estate of August Humboldt, deceased. April 20. 2-5w

Probate Notice.

IN THE PROBATE COURT, OF THE County of Yuma, Territory of Arizona. In the matter of the estate of John Borland, deceased.

Notice is hereby given by the administrator of the estate of John Borland, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within ten months after the first publication of this notice to the said administrator or his attorney, in the Village of Yuma, County of Yuma.

Dated at Yuma, Arizona, April 24, 1878. SAMUEL PURDY, Jr., Attorney for F. D. Welcome, administrator of the estate of John Borland, deceased. April 27. 3-5w

Notice.

TO WHOM IT MAY CONCERN:

NOTICE IS HEREBY GIVEN, THAT H. N. Alexander, Esq., has ceased to be my attorney, either at law or in fact; and that he is no longer authorized to sign for me or in my name, or collect any money for me, or to transact any business in my name, of any kind or character whatsoever. CHRIS. HORNER.

Dated at Yuma, Arizona, April 14, 1878. 2-4w

ARIZONA SENTINEL.

SATURDAY, - - - MAY 11, 1878.

LOCAL MATTERS.

Transportation.

Ward's train got back from Globe Tuesday and to-day begins loading 32,000 pounds for Zeckendorf & Co., Tucson. Dennis & Murphy's and Lutgerding's trains left yesterday with 104,000 pounds, including 5199 for John Smith, McDowell; 6905 for the Tip Top, 2880 for C. H. Gray, 3325 for Geo. Lahr, 885 for W. A. Hancock, 2170 for A. Goldman, 3350 for Lutgerding, 5485 for Brunson & Harris, four bundles printing paper, and 5000 pounds for various other parties in Phoenix; also 2700 for Wellsch, 400 for Green, and 1900 for Tully, Ochoa & Co., of Tucson.

Zalazar loads to-morrow 30,000 for Jacobs & Co., Tucson. Jimmy Carr got here sick on Wednesday, with two boxes silver amalgam and a lot of wool from Lord & Williams. His train is now loading for Tucson. Barnett's train left Tucson on the 3d and Noriega's on the 9th, for a load of concentrates from the Silver King mill. Jenks is due here to-day with a load of the same. Donnelly arrived on Wednesday with 8000 pounds Silver King concentrates, and is now loading 12,000 pounds of government freight for Tucson. This cleans out all government freight here for wagons hence to interior posts. Isaacs loaded 40,000 yesterday for Tucson.

CAPT. J. M. STARKWEATHER has resigned the superintendency of the Arkansas, owing to having so much other business to attend to for his company, on the Pocomontas and Railroad claims, Castle Dome and the Genesee mine of Eureka district. The Railroad claim is a comparatively new location, but it bids fair to rival the Arkansas. Two tons of clean galena were taken from the first five feet, after striking bed-rock. Starkweather is still retained, at the same salary, as assistant superintendent of the Arkansas.

THE "Cinco de Mayo" was passed here without celebration by our Mexican residents. It was the anniversary of the day on which Gen. Saragoza almost annihilated the invading French, before the "Towers of Puebla." It afterwards took Marshal Forey forty-one days to take said towers away from 18,000 Mexican patriots, though he had 20,000 of the flower of the French army and 20,000 Mexican renegades.

MR. WM. E. SMITH got home on Sunday, having left his family at Prescott for a visit. He says that Prescott people are very anxious to make their stage and mail connections with the railroad at Yuma, instead of at Dos Palmas, thus saving fourteen hours time and much desert travel.

MESSRS. DAVID BALSZ and G. A. Ringwald have been appointed Supervisors of Yuma county, to fill vacancies caused by resignations of Messrs Grow and Lyons. Both of the new supervisors are large property-owners here, and consequently interested in the welfare of the county.

LOST—A plain gold, round ball, part of an ear-ring. Lost Thursday between Capt. Overman's house, the postoffice and Yuma City Market. Finder will be suitably rewarded on leaving same at the house of Capt. Wm. Peole.

GRIFFITH goes to Gila Bend, as he says, to meet the new mail-contractor, Col. J. T. Childster. He promised to tell him that the Yuma Indians are better mail-carriers than the Pimas—longer-winded and run faster.

WHILE Lieutenant King was enjoying a ten days' leave of absence, Fort Yuma was commanded by major J. H. Lora. Maybe that is why there has been so little powder in that early morning gun.

THE transit of Mercury, between the Earth and sun, passed off all right last Monday. Visible here all the forenoon with an ordinary lorgnette and smoked glass.

LIBERAL—The C. S. N. Co. only charged nine dollars for the use of the Steamboat Colorado, for the school children's picnic. That barely paid cost of wood consumed.

DRIED onions and dried tomatoes, something new here, at Monteverde & Gandolfo's. Just the thing for miners, travelers and prospectors.

COL. C. G. MASON and family, and Judge Anderson, are here en route for Los Angeles. Mason carries fine specimens in his pockets, as usual.

THERE is much freight here. Both warehouses are full, and loaded cars are standing around on the side tracks. Lord & Williams, of Tucson, have 80,000 of it, and more coming.

Ice Notice!

Parties wishing ice will please call for it at the Yuma Exchange, before nine o'clock every morning. REDONDO & BALSZ.

NEXT steamboat up river is advertised to sail on the 15th. Next after that probably goes on the 18th.

THE ship-yard here presents a busy scene. The boiler-makers are still at work on the Gila's cooking arrangements. Juan Lastro is back here, putting new zinc on her upper and hurricane decks. Muzzy is getting the new machine-shop and engine-house fitted up as fast as the rush of new work permits. Capt. John Healey has got Pete Shall, Uncle Spear, Davis, and all the old "chips," besides a lot of new ones, at work on the Cocopah, which is still out on the ways. A good job is being done on her. Every defective plank in her bottom has been replaced, and almost entire new sides, and new knuckle-streaks put into her. It is astonishing to see the marvelous accuracy with which great, sixty to seventy feet long, three-inch planks are dressed, let in, and bent and twisted to fit every contour of the hull. When put into the water again the Cocopah will be better than new.

ON Thursday a handsome shipment of Arizona products was made to San Francisco, by Mr. Neahr. It consisted of 11797 pounds of ore in boxes and 1820 pounds of nuggets sewed up in rawhides, from the famous Stonewall Jackson mine. Its value is immense, some parties placing value of the lot as high as \$100,000. It is all malleable chlorides and dentritic chips of virgin silver. If clean, there is no reason why it should not yield \$8 to \$10 per pound. It is to be hoped that this ore will be placed on exhibition at San Francisco, before being melted in crucibles. "Seeing is believing."

Blow-out at the Yuma Exchange.

To-morrow morning, and thereafter, we shall have ice, imported ginger-ale, lemon and sarsaparilla soda, mint juleps, and mixed and fancy drinks of every description. REDONDO & BALSZ. If

A PANORAMA and dissolving-view exhibition is being taken to Phoenix on Lutgerding's train. No exhibition was given here, but it is said to be a first-class show. Ormon and Webb, formerly of Globe, are engineering it.

THREE bars and a box of silver bullion came in by stage on Tuesday; value nearly \$12,000. Moulded in immense bars for safety against stage-robbers.

GENTS' furnishing goods, fine assortment, at H. S. Fitzgerald & Co's. Moving the Postoffice back and enlarging the store to make room.

OUR watchmaker, G. Fontana, has gone on a business trip through the interior. He is a good one.

THE Colorado river is rising fast. Rise Thursday was seven inches; on Thursday night, 13 1/2 inches.

"TRANSPORTATION Proposals" have been postponed. See new advertisements.

A HANDSOME steam pump is here for the Peck mine.

THE Sacramento mine, a mile and a half from Tubac, is turning out remarkably well. At last advice three inclines had been sunk on good ore to depths of thirty-six, forty and sixty feet. A streak of black chlorides and sulphurets has been cut, which assays the extraordinary value of \$9000 per ton. Ten tons of selected ore have been prepared for shipment. Mr. Charles Bell, a professional assayer, has been on the mine since work began, and informs his partners that there is already more than ore enough exposed to pay for reduction works. Professor Eisenbeck has been sent down to examine the property, and to recommend the character of works best adapted to reduce its ores. Eisenbeck learned his business, metallurgist and mining engineer, at the famous Clausthal mines, of Germany. He has been on this coast since '93, and was out here on the river twelve years ago. At that time he prospected the head of the Mohave desert and the Slate Range country. He will examine other mines around the Sacramento, and we believe his reports will be of value to the Territory.

Fine Stock.

A splendid jack, fifteen hands high, four years old next month, was brought here yesterday by Mr. T. F. White, who takes him to his Oak Grove ranch, near the Sierra Bonita, Pima county. He was bred by P. R. Saxe from a Zorab jennet and Black Sampson, bred by Samuel Hill, of Boone county, Mo. He cost \$1000 and freight. His name is "Balaam," in honor of his biblical ancestor—paternal line.

THE Texas-Pacific bill was expected to be brought up before the Senate yesterday. The bill granting right of way to the Southern-Pacific, across the Fort Yuma reservation, is still before the Senate Military committee.

THE Bucephalus and Citizen are two mines in Mineral Creek district, Pinal county, in which J. L. Ward is interested. He gets good accounts from them: eight to nine feet of \$75 to \$100 rock.

BALES of wool-sacks are going into the interior in great quantity. There must be more sheep out there somewhere, than Arizona has been getting credit for.

Copper.

Dr. DeCorse has shown us fine specimens of copper ore, rich in silver and gold, brought by him from vicinity of the Ajo mine. The Doctor says that there is a piece of country there, about two miles square, that is a perfect net-work of cupriferous veins of varying sizes and richness, from mere threads of virgin copper (of which he showed us specimens) to immense croppings of its ores. The quartz-seams all run more or less parallel; at nearly right angles to them a belt of spar crosses the district, producing marked effects and usually larger ore-deposits at its intersections of the veins. Several parties are now at work there. Some of the Doctor's specimens of virgin copper carried in quartz, like gold, are very fine.

SANTA Monica has lately been visited by Major King, of Fort Yuma. He gives a glowing description of its beauties and attractions, which he says are far greater than those of Long Branch. The bathing houses are the best he ever saw. The water was delightful and the drives in the vicinity charming. Santa Monica must become the sea-side watering-place for Arizona. It is easily reached by cars from Yuma.

THE following dispatch has been received by F. R. Webster, of the firm of Whitney & Webster, President of the Altar (Sonora) Gold and Silver Mining Company and bears date May 4. Shaft No. 2 down 20 feet in solid vein 12 feet wide; metal very rich. Will ship ore next week. Making new silver bars. Mine pays its way. OTTO F. GEORCKE, Superintendent.—S. F. Post.

SOME idea of the growth of Pima county and of the extent of business carried on there may be formed from the fact that during the past twenty days the house of Col. J. M. Barney alone has forwarded to Tucson over 2,000,000 pounds of freight, of which 750,000 went to one firm—Lord & Williams.

CAPT. A. B. KNOWLES, assessor of San Diego county, has been here on official business. The Southern Pacific company thinks their road has been assessed too high. Supt. Hewitt says the bridge can not be assessed because it is part of a wagon road. If that is so, why are wagons no longer allowed to cross it?

"THE Silver Belt" is the name of a new journal published at Globe. The first number gives promise of a good paper. It is published in one of the richest and most agreeable parts of Arizona. Good luck and lots of it!

SUSPICION points to parties residing at Wickenburg as guilty of the stage-robbery recently committed near that place.

BEVERLY Cox and young Ward came in on Thursday. Cox is going to Phoenix as foreman for King Woolsey.

THAT Prescott foundry must be doing business. More coal here for it.

ISAAC LYONS,
